Professional All-in-One Black and White Laser Printer

Our most advanced, high-performing mono laser multifunctional device.

Ideal for high volume users, the intelligent device is designed to deliver a user-friendly, professional experience with exceptional printing that your business can depend on.

MFC-L6910DN

Key Features

- Print up to 50 pages per minute
- 2-Sided print, up to 24 sides per minute
- 2-Sided scan, up to 100 images per minute³
- 17.8cm Colour touchscreen
- Gigabit ethernet, optional 2.4GHz WiFi
- 2GB Internal memory with optional secure USB storage
- 80 Sheet 2-Sided Automatic Document Feeder (ADF),
- 520 sheet paper input tray expandable up to 2,600¹¹
- Comes with 25,000 page yield toner, 25,000 maximum yield available⁷
- Compatible with Brother and 3rd Party solutions¹⁹
- NFC for secure authentication

Secure by Design

To keep pace with the ever-evolving legislation on privacy and data security, our devices offer the latest industry-standard security features to securely protect your data.

All our products are secure as standard. With businesses shifting towards Zero Trust environments, we know that security is your highest priority. Our security experts continuously research new enhancements to products, solutions and services to proactively ensure all our products are 'secure by design'.

The MFC-L6910DN provides a range of robust features. It uses triple-layer security at a device, network and document level which is verified through external security certification. This offers added peace of mind and guarantees that the integrity of your data is maintained at every step.

The **MFC-L6910DN All-in-One** comes with a flexible suite of security features and solutions that can be tailored to your business, enabling you to easily audit, control and manage your fleet of devices securely.

Your device protects your business by reducing its attack surface through:

Restricting user access - by using LDAPS or Windows Active Directory, only authorised users are able to access the device.

Restricting privileges at a device level - with Secure Function Lock and Setting Lock, only authorised users are permitted access to specific functions.

Maintaining device integrity - with runtime intrusion detection, Secure Boot, digitally signed firmware and end-to-end encrypted connections, devices are always performing at their optimum level of security.

Network Protection

Your network is protected with flexible industry standard features and management tools including:

Intrusion protection - with protocol management, interface restrictions and IPV4 filtering, you have the flexibility to adapt device settings to your business.

Secure connection - securely connect to enterprise level wired and wireless networks through industry standard IEEE 802.1X.

Secure encrypted communication - by using flexible industry standards such as TLS, SSH, IPSEC, HTTPS and SNMP3, your business can tailor the device to its network.

Easily manage and configure your security profile - using Device Master Settings, BRAdmin Pro 4 and Mass Deployment Tool, your business can apply settings to entire fleets of devices.

Audit your devices - using SIEM integration through Syslog, you can gather real time usage information on your devices.

Engineered for Performance

The robust design, upgraded memory and long-life components provides confidence your printer keeps on performing without interruption. With fastest in class 2-sided scanning speeds of up to 100 ipm, physical documents are easily transformed into digital files with precision clarity.

Twin laser technology enables productivity to be greatly improved. With a first print out time of up to 6.7 seconds and a duplex print speed of up to 24 sides per minute, you are never kept waiting for that important document.

Model Number	Parts Life
Engine Life	600k pages
Fuser Unit	200k pages
Drum Unit	75k (Auto Reset)

Secure by Design

As working conditions change, security is more critical than ever. That's why each single function printer and all-in-one comes equipped with a range of features that deliver enterprise level security.

To safeguard data against loss or theft, Transport Layer Security (TLS), Secure Socket Layer (SSL), IPSec and Scan to SSH Server (SFTP) are supported so that your most confidential files transfer using up to 256-bit encryption during transmission over the network. Using automatic intrusion detection, devices recognise abnormal activity and take preventative measures in order to ensure the printer remains secure.

Plus, identity management and access control help to reduce risk with selective user restriction, only allowing authorised employees or groups to get instant access to specific settings and functions they need.

Encrypted document transfer - when you send your print data from your computer to the device, IPPS/HTTPS encryption ensures your data is secure and unreadable.

Secure scan data transfer - whether you are scanning to your local network or over the internet via Web Connect or a cloud-based service, your data is protected using TLS, HTTPS, SFTP (SSH).

Non-persistent internal memory - all print job data is automatically wiped during a reboot and data is purged, ensuring no information is left on the device.

Secure print release - using a Brother secure print solution, documents are only released when you are ready to print and collect them.

Optional 3rd party integration* - through Brother Solutions Interface (BSI), our devices can be fully integrated with trusted 3rd party partners such as Kofax, YSoft, and more. These add an extra layer of security to your business.

**Optional third party utilities compatible with the MFC-L6910DN will require additional costs.*

Seamless Integration with Brother Solutions Interface (BSI)

Whether you already use print software or would like to understand how specialist print software can help your business, we are here to help.

As a Brother customer, you will have access to a wide choice of leading software vendors including Kofax, YSoft, and many more. We work closely with our software partners across print management and document capture to create tailored solutions for your specific requirements. When we partner with a software vendor, we ensure your MFC-L6910DN works even harder to meet your needs.

**Optional third party utilities compatible with the MFC-L6910DN will require additional costs.*

Solutions Enabled

Unlock new possibilities with our range of Brother Pro Upgrades*

Automate workflows and improve business processes and security with print management solutions.

We offer a suite of document management, security and workflow solutions which can be added to the MFC-L6910DN to provide additional professional features to further improve your business processes.

Workflow Solutions

Custom User Interface*

Personalised printer touch screen

Make time consuming and complicated document filing and archiving simple with custom UI. Create specific workflows for frequent 'scan-to' destinations on the fully customisable touch screen, enabling your files to be saved to the correct location in one touch.

Barcode Print Plus*

Printing barcode fonts with ease

Brother's Barcode Print+ enables you to easily print barcodes from your Brother printer. You simply supply your printer with the information for the barcode, the barcode is then printed exactly as it should appear. The quality of the barcodes reflects Brother's exceptional printing standards. So, The printed 2D and 3D barcode is easily read by a variety of barcode readers and scanners.

**Brother Pro Upgrades are optional and will require additional costs.*

Barcode Utility*

Automatically route documents with barcodes

Reduce the labour-intensive task of scanning many documents, saving and then renaming the files. Barcode Utility enables documents that have a barcode to be scanned and saved to the required location, automating the separation of a batch of documents and routing each individual file to the designated folder on your network.

Security Solutions

Secure Print Plus*

Print secure documents from a specific printer

Secure Print+ enables you to print your confidential business documents securely. Your sensitive documents are only printed when you are ready to collect them from the printer. Only authorised staff can collect their documents and users are easily added or removed.

Advance Secure Print*

Print your document from any printer connected to your network

Pull printing is a unique way of printing wherever you are in the office. Advance Secure Print enables you to print your document from any printer connected to your network using a PIN or with a tap of an authorised NFC card. Brother Advance Secure Print works with compatible devices activated with this feature.

Printer Management

Remote Panel*

Remote printer support

Remote Panel operates in real-time, offering a complete interactive interface to your printer. Your IT provider can access the full functionality of your printer, to quickly diagnose and resolve any issues and enable settings to be changed as if they were physically standing at the printer.

Request Help*

Diagnostic reports for IT administrators

Request Help is a Brother service that enables your IT administrator or service provider to easily troubleshoot errors that may occur. You simply press the 'Request Help' icon on the control panel and a full diagnostic report is created and automatically emailed to your IT administrator.

Order Supplies*

Order supplies from your printer

Effortlessly order your toner cartridge supplies directly from your printer, with the Order Supplies service. In one touch, your selected supplier will be notified when you require replacement supplies and arrange delivery, ensuring you never run out of toner when you need it.

**Brother Pro Upgrades are optional and will require additional costs.*

Printer Functions

N-up Printing

Reduce up to 25 pages into
a single page

Poster Printing

Enlarge a single page into a
poster using 2x2, 3x3, 4x4
or 5x5 pages

Toner Save Mode

Use the Toner Save Mode to
reduce toner consumption
without affecting print speed

Watermark Printing

Watermark your documents
with predefined text, custom
logo or custom messages

ID Printing

Add identification to your printed
documents (date and time,
short custom message or
PC username)

Booklet Printing

Print documents in A5 booklet
format using automatic or
manual 2-sided print

Print Profiles

Store your favourite driver
settings as profiles to easily
recall them

Direct Print

Print directly from a USB flash
memory drive. Supported
formats include; PDF 1.7, JPEG,
Exif+JPEG, PRN (created using
printer driver of model), TIFF
(scanned using brother model),
XPS version 1.0

Manual 2-Sided Print

Manual 2-sided printing
(recommended for media not
supported by automatic
2-sided print)

Storage Print

Easily retrieve and print
your documents which are AES
256 encrypted and held within
an attached USB flash memory
drive storage (not included)

Reverse Print

Rotate the content of a printed
document by 180°

Carbon Copy

Prints additional copies of the
same document to paper taken
from additional paper trays

Print Complete Notice

A printing notification can be set
to go to your computer

Match Media

Assign an ID to a specific tray to
make the selection of different
media types from a specific
tray easier

Skip Tray

Configures your paper tray
selection to avoid specific trays/
media for regular printing

Job Separation

Insert a different coloured piece
of paper between different print
jobs to separate them for easy
identification

Secure Print

Protect print jobs with a 4 digit
release code required at the
device in order for them to
be printed

Printer Driver

Windows

Windows 11
(32 and 64 bit editions)
and more

macOS

Printing via macOS requires the use of AirPrint. Mac drivers are not provided.

Linux

CUPS, LPD/LPRng
(i686 and x86_64)

ChromeOS

Supports native
ChromeOS printing

PCL Driver

Generic PCL XL driver

PostScript Universal Printer Driver

Driver for Windows that enables you to print to any network or locally connected Brother printer

Visit www.brother.co.za/en/support for the full list of supported OS and to download the latest drivers and software.

Paper Handling¹¹

Mobile and Web Connectivity

Brother Mobile Connect¹⁷ (Android)

Print from, scan to, preview copies and check the machine status from an Android device

Brother Mobile Connect¹⁷ (iPad / iPhone)

Print from, scan to, preview copies and check the machine status from an iPad / iPhone

Apple AirPrint¹⁷

Print from and scan to most common file types from any AirPrint enabled application

Brother Print Service Plugin¹⁷

Print from an Android devices without a dedicated App.

Mopria™¹⁷

Print most common file types from Mopria™ supported Android devices

Brother Apps¹⁸

Scan to Mobile, Scan to Searchable PDF, Fax forward to Cloud/E-mail, Scan to PowerPoint, Scan to Excel, Scan to Word, Easy scan to E-mail

Web Connect¹⁸

Print from and scan to without using a PC on Box, Dropbox, Evernote, OneDrive, Google Drive™ OneNote

Copy

Copy Speed (A4)

1-Sided: 50ppm
2-Sided: Yes

Resolution

Up to 1200 x 600dpi

FCOT

(First Copy Out Time)
Up to 8.7 Seconds Mono

Grey Scale

256 shades of grey
(8 bit for each colour)

Copy Functions

Multi-Copying/Stack/Sort

Makes up to 999 copies of each page / Stacks or Sorts

Enlargement/Reduction Ratio

Reduce or Increase document sizes from 25% to 400% in 1% increments

2 in 1 ID Copying

Allows the user to copy both sides of an ID card to a single A4 sheet

Copy Interrupt

Configure the machine to interrupt a print job in progress at any time to print another copy function job

Receipt Copying

Produces clearer copies of receipts

N in 1 Copying

Allows the user to compress 2 or 4 pages on to a single A4 sheet

Scan

Scanner Type

Dual CIS (Contact Image Sensor)

Colour and Mono Scanning

Yes

Scan Speed (A4)³

1-Sided: 50ipm Mono and 30ipm Colour
2-Sided: 100ipm Mono and 60ipm Colour

Scan Resolution from ADF

600 x 600dpi

Scan Resolution from Scanner Glass

1200 x 1200dpi

Interpolated Scan Resolution

Brother Scanner Utility enhances up to 19,200 x 19,200 dpi

Colour Depth

48 bit colour Processing (Input)
24 bit colour Processing (Output)

Grey Scale

16 bit colour Processing (Input)
8 bit colour Processing (Output)

Scanner Functions

Supported File Formats

Including PDF (PDF/A-1b, Secure PDF, Signed PDF, Searchable¹⁷) JPEG, TIFF, XPS

Standard Functions¹⁷

Scan to USB, E-mail, OCR, Image and File

Network Scanning

Scan to network folder (SMB)¹⁶, FTP, SFTP, Email Server, SharePoint (On Premise)

Direct Scan

Scan directly to a USB flash memory storage

Scan Features

Auto Deskew from ADF, Rotate Image¹⁶, Background Processing¹⁶, Colour Drop¹⁶, Character Correction^{16,17}, Edge Emphasis¹⁶, Reduce Noise¹⁶, Edge Fill^{16,17}, Skip Blank Page, Split and Multi page PDF

Scan To Microsoft Office

Scan to Word (.docx), PowerPoint (.pptx), Excel (.xlsx) for Microsoft Office

Scan Profile¹⁵

Create up to 25 preset network, SFTP/FTP profiles for an easy way to store multiple scan settings

Document Separation

Create scanned files based on blank sheet separation or a specific number of single sided images or sheets of paper, even if more documents are set on the ADF

Scanner Drivers

Windows

TWAIN and WIA
Windows 11
(32 and 64 bit editions)

Visit www.brother.co.za/en/support for the full list of supported OS and to download the latest drivers and software.

macOS

Scanning via macOS requires the use of AirPrint. Mac drivers are not provided.

Linux

SANE (32 and 64 bit editions)

ChromeOS

Supports native ChromeOS scanning

Fax

Automatic 2-Sided Faxing

Yes

Fax Modem

33,600bps (Super G3)

Grey Scale

256 shades (8 bit) of grey are available for faxing

Out of Paper Reception

Up to 500 pages (ITU-T Test Chart, Standard Resolution, JBIG)

Broadcasting

Send the same fax message up to 350 locations

Memory Transmission

Up to 500 pages (ITU-T Test Chart, Standard Resolution, JBIG)

Fax Functions

Internet Fax (I-Fax)

Fax documents over the internet as an email attachment

Fax to Server

Scan a document and send it over the network to a separate fax server

Automatic Redial

Automatic redialling if the recipient fax is busy

Telephone Index

An electronic, alphabetical listing of stored speed dials and group numbers

Chain Dialling

Allows the user to store parts for long dialling sequences in different speed dial locations

Batch Transmission

Stores documents for the same location in the machines memory for transmission in a single call

Fax Forwarding

Sends a fax received in memory to another pre-programmed fax number

Remote Retrieval

Allows users to remotely access their machine and retrieve stored fax messages

Fax Stamp

Add the date and time to all received faxes

Cover Page

Create custom cover pages for outgoing faxes

Station ID

An ID and fax number will be printed as the header of every fax sent

PC-Fax Send^{15,18} and Receive^{16,18}

Send and Receive faxes directly from your PC. Supports mono only

Distinctive Ring Detection

An external service that allows two or more telephone numbers shared on a single fixed line and use different ring tones (UK and Denmark only)

Error Correction Mode (ECM)

Detect line errors during fax transmission and resend the page(s) of the document that had an error (recipient machines must share this feature for it to work)

Auto Reduction

When receiving a single page document longer than A4 (297mm) the fax machine will automatically reduce the message to fit onto a single A4 sheet

Fleet Management Tools

Unattended Installer¹⁶

Ability to centrally deploy and customise our drivers and software

MSI Installer¹⁶

Modular installers that can be distributed through On-premise Active Directory

BRAdmin^{16,17}

LAN/WAN management software

Embedded Web Server

Web based print management software embedded onto the device

Driver Deployment Wizard^{16,17}

Easily create print drivers for hassle free deployment over your network

Mass Deployment Tool¹⁶

Provides a configuration interface to help manage and deploy device settings

Status Monitor¹⁶

Monitor the status of your machine from your computer

Software

Brother iPrint&Scan Desktop^{15,17}

Print from, scan to, preview copies and check the machine status from Windows or macOS PC

PaperPort SE 14^{16,17}

Document management and sharing program from KOFAX

Utilities

Provides setup guides, manual, FAQ, troubleshooting and contact to Brother customer service

Easy Setup

Simple access to drivers and software for the installation of your Brother machine from support.brother.com

Connectivity

Wired Network

Gigabit Ethernet (10Base-T/100Base-TX/1000Base-T)

Wireless Network²²

2.4GHz: IEEE 802.11 b/g/n (Infrastructure Mode)
IEEE 802.11 g/n (Wi-Fi Direct) (Optional NC-911W)

Wi-Fi Direct²²

Print wirelessly without having to go through a wireless access point (both automatic and manual methods supported)

Wireless Setup Support²²

Wi-Fi Protected Setup (WPS)

Wireless Applications²²

Vertical Pairing

Mobile

Print or scan from your mobile device with Brother Mobile Connect, Airprint, Mopria

Local Interface

Hi-Speed USB 2.0, USB 2.0 Host (Front | Rear)

Warranty

5-Year On-Site Warranty

When you purchase a Brother printer and our genuine inks or toners, we'll support you every step of the way with our FREE 5-year warranty commitment. YOU DO NOT NEED TO REGISTER YOUR PRODUCT, our warranty is automatic when you purchase your Brother printer. To keep your Brother machine running in optimal condition we recommend using only Brother Genuine Consumables, this will ensure you automatically enjoy our exclusive 5-year warranty.

Security Features

Wired Network Security

APOP, SMTP-AUTH, SSL/TLS (IPPS, HTTPS, FTPS, SMTP, POP3, IMAP4), SNMP v3 802.1x (EAP-MD5, EAP-FAST, PEAP, EAP-TLS, EAP-TTLS), Kerberos, IPsec

Wireless Network Security²²

WEP 64/128 bit, WPA-PSK (TKIP/AES), WPA2-PSK (TKIP/AES), WPA3-SAE (AES)

*Wi-Fi Direct supports WPA2-PSK (AES) only. APOP, SMTP-AUTH, SSL/TLS (IPPS, HTTPS, FTPS, SMTP, POP3, IMAP4), SNMP v3, 802.1x (EAP-FAST, PEAP, EAP-TLS, EAP-TTLS), Kerberos, IPsec

IPv4

ARP, RARP, BOOTP, DHCP, APIPA(Auto IP), WINS/NetBIOS name resolution, DNS Resolver, mDNS, LLMNR responder, LPR/LPD, Custom Raw Port/Port9100, POP3, SMTP Client, IPP/IPPS, FTP Client and Server, CIFS Client, TELNET Server, SNMPv1/v2c/v3, HTTP/HTTPS server, TFTP client and server, ICMP, Web Services (Print/Scan), SNTP Client, LDAP, IMAP4, Syslog

IPv6

NDP, RA, DNS resolver, mDNS, LLMNR responder, LPR/LPD, Custom Raw Port/Port9100, IPP/IPPS, POP3, SMTP Client, FTP Client and Server, CIFS Client, TELNET Server, SNMPv1/v2c/v3, HTTP/HTTPS server, TFTP client and server, ICMPv6, SNTP Client, LDAP, Web Services (Print/Scan), IMAP4, Syslog

IP Filter

Restrict which network users can or cannot access the device over the network (IPv4 only)

Secure Print

Protect print jobs with a 4 digit release code required at the device in order for them to be printed

E-mail Notifications

Automatically have the device send e-mail alerts when it requires attention, such as when the toner is low or needs replacing

E-mail Reports

Receive usage reports on a regular basis via e-mail

Automatic Intrusion Detection

All Brother Print devices are secure by design. Devices automatically recognise security attacks and take preventative measures, including rebooting where necessary, to ensure the device remains secure

Firmware Updates

In addition to allowing automatic update alerts to install the latest version the printer can be set to not receive older firmware versions to avoid downgrade by an unauthorised user

Cloud Secure Print

Enables password protected driverless print job release

Setting Lock

Secures access to the devices control panel by locking it

Certificate Management

Use the default standard self-signed, create a custom self-signed certificate, certificate signing request (CSR), or external public certificate & private key for protected network communication

Secure Function Lock 3.0

Use a 4 digit pin or a password to identify and authenticate an individual or groups of users over a network. Allows access control for up to 200 users

Digitally-signed Firmware

The firmware for Brother print and scan devices is digitally signed and secure

Syslog

Allows IT Admin to access a single application (SIEM tool) to get device status updates for audit purposes over Syslog

On-Premise Active Directory/LDAP Authentication

Utilise existing infrastructure to restrict access to Brother devices using AD/LDAP. Staff can easily use their existing network login credentials to authenticate

Port-based Network Access Control

(IEEE 802.1x) Brother devices are in full compliance with this standard, to allow connection to an 802.1x EAP (Extensible Authentication Protocol) protected network

Restrict network protocols

The Protocol Control feature allows an administrator to restrict communication protocols (e.g. FTP, Telnet) as required

Store Print Log

Allows audit of a print log file saved to CIFS server. Record ID, type, name, user, date, time, page count for every print job

Near-Field Communications (NFC) / Card Reader Support

Integrated NFC Reader

Supported NFC standards include: (ISO14443 Type A) MIFARE Standard/Plus/Ultralight/Ultralight C/DESfire my-d move, Tag-it (ISO15693 Type B)

External NFC Card Reader Support

RFIDeas pcProx Enroll

- RDR-6081AKU
